

The small, mountaintop village of Prezza is located in the Italian region of Abruzzo. It is an area rich with traditions and culture. My love for wine and desire to learn my family history brought me to the area for this simple picture story on "La Vendemmia," or "The Harvest." Getting out into the fields gave me a great and unique perspective on rural Italian life as I witnessed the livelihood of the people who hold family and tradition so close to their hearts.
